

Name:	SRN:	Section:
	Date:	Unit 1 Assignment Exercise

PROBLEM STATEMENT1 (for odd number SRNs):

Create a PES Students Re-evaluation request template using HTML Tags, H2, P, anchor tag, Table (caption, th, tr, td), images, forms and list.

The re-evaluation form should contain Name, SRN , Subject for which they would apply for re-evaluation , date of request and other details of the student. The form should contain a checkbox confirming that all the details are appropriate .

The webpage should display

- I. Form should be created inside a table
- II. Form consisting of multiple fields which should include
 - A. Textboxes
 - B. Labels
 - C. Radio buttons
 - D. Checkboxes
 - E. Dropdowns
- III. Use external CSS for styling the webpage
 - A. apply background color to the page.
- IV. Add a PESU logo at top center of the page using image tag
- V. Validate the form fields using input properties
 - A. All the fields in the form are required.
 - B. Email should be in proper format
 - C. Mobile number field should consist only digits
 - D. Reset button to be there to reset all the fields.

- VI. Make use of a function for on submit button click, using JavaScript to display “Successfully submitted” alert message.
- VII. Use reset button to clear all fields.

OBJECTIVE

The objective of this exercise is to test the student on HTML. It evaluates the student’s knowledge on the basic HTML tags for displaying images, lists, tables and links, CSS Styles and JavaScript Basics.

PREREQUISITE

In order to complete this exercise, the student needs to understand the fundamentals of HTML and CSS. The student must be familiar with the basic HTML tags for creating links, lists etc., CSS and JavaScript.
